

ASTHO COVID-19 Jurisdictional Vaccination Plans Compendium

As of Nov. 12, 2020

OVERVIEW

In September 2020, state, territorial, tribal, and local public health entities were charged with developing plans and operations for forthcoming COVID-19 vaccinations. Using CDC's [COVID-19 Vaccination Program Interim Playbook for Jurisdictional Operations](#)*, entities developed their own jurisdictional plans. The list below includes links to available executive summaries and jurisdictional plans for states, territories, freely associated states, and large cities that were found on the [CDC](#) and each health department website (where available).

Note: The plans below were written in response to Version 1 of CDC's playbook. Version 2 of the playbook was released after jurisdictional plans were already submitted and/or posted. These are living documents that may be updated as readiness and response continues.*

Alabama: [Executive Summary](#) | [Jurisdictional Plan](#)
Alaska: [Executive Summary](#) | [Jurisdictional Plan](#)
American Samoa: [Executive Summary](#)
Arizona: [Executive Summary](#) | [Jurisdictional Plan](#)
