

The Massachusetts Department of Public Health Prevention and Wellness Trust Fund

Tiering of Interventions Table: 4 Priority Conditions only

	Tobacco		Pediatric Asthma		Hypertension		Falls Prevention in Older Adults	
	Clinical	Community	Clinical	Community	Clinical	Community	Clinical	Community
<p>Tier One – at least one intervention is required for each priority condition selected by grantee in grant application. DPH will focus majority of all efforts (technical assistance, learning sessions and evaluation) on these interventions.</p>	<p>USPSTF Recommendations for Tobacco Use Screening and Treatment (2009,2013)</p>		<p>Care Management for High-Risk Asthma Patients</p>	<p>Home-Based Multi-Trigger, Multi-Component Intervention</p>	<p>Implementation of evidence-based guidelines for diagnosis and management of HTN*</p>	<p>Chronic Disease Self-Management Programs</p>	<p>Comprehensive Clinical Multi-Factorial Fall Risk Assessment</p>	<p>Home Safety Assessment and Modification for Falls Prevention</p>
<p>Tier Two DPH will provide support but on a somewhat more limited basis (technical assistance, learning sessions and evaluation) for these interventions.</p>		<p>Promoting Smoke Free Environments</p>	<p>Asthma Self-Management in Primary Care</p>	<p>School-Based Multi-Trigger, Multi-Component Environmental Improvement</p>		<p>Self-Measured Blood Pressure Monitoring w/ Add'l Support</p>		<p>Programs to Address Fear of Falling, Strength and Balance (Matter of Balance, Tai Chi)</p>
				<p>Comprehensive School-Based Education Programs</p>				<p>Home-based Exercise Programs (Otago)</p>
<p>Optional conditions: All interventions for optional conditions (Substance Abuse, Diabetes, Oral Health and Obesity) named here or listed in the RFR are considered as Tier Two except cross-cutting interventions that have been designated as Tier 1 elsewhere (see page 3 above for further detail)</p>								
<p>Tier Three DPH will provide technical assistance and evaluation only if it aligns with other DPH initiatives. DPH would expect that no more than approximately 5% of total budget expenditures will be used for these interventions</p>	<p>For priority conditions, any interventions not listed above will be considered Tier 3 interventions. For optional conditions, any interventions not listed in the RFR or placed into Tier 1 will be considered Tier 3 interventions.</p>
