Increasing Access to Contraception Learning Community
Year 3 In-Person Kick-Off Meeting

Renaissance Washington DC

October 27-28, 2016
Day 2 Arrival

7:30-8:05 am
Welcome and Agenda Review

Kathy Vincent
Facilitator
Themes from Day 1 - Linkages to Strategies

Provider Training
- Provider Champions
- Placement Training “See it...Do it”
- Coaching Clinicians to Counsel More
- More Guidance than Provider Bulletins

Patient Outreach and Education
- Reaching Future Clients – Use Peer Educators
- Adjust Efforts Based on Population Type
- CHWs – Demonstrate Success

Billing and Stocking
- 340B – in-patient vs. outpatient
- Working with Health Plans

Service Locations
- FQHCs – Carve Outs
- Access to Rural Providers
- IPP LARC Logistical Barriers

Immediate Postpartum LARC State Monitoring Tool Demo

Cameron Estrich
Community Health Sciences PhD Candidate
University of Illinois at Chicago School of Public Health
Immediate Postpartum LARC State Monitoring Tool

- State data tool developed to assist teams in monitoring efforts
- Available on the ASTHO LARC Website:
  - Under: “Guidance and Strategies for Implementing LARC”

IPP LARC State Monitoring Tool
A simple tool to calculate immediate postpartum LARC implementation measures using Medicaid claims data.

Complex IPP LARC State Monitoring Tool
A tool to calculate IPP LARC implementation measures using Medicaid claims data, with capabilities to adjust for patient or facility-related variables.

Immediate Postpartum LARC State Monitoring Tool

- Measures calculated from existing Medicaid claims data
- Table and chart templates for disseminating results
- Five key indicators:
  1. Birthing Facilities Billing for IPP LARC
  2. IPP LARC coverage
  3. IPP LARC uptake
  4. IUD removal
  5. Implant removal

The following state teams will convene in Meeting Room 10/11, one level up.

- Alaska
- Louisiana
- Wyoming
- Connecticut
- New Mexico
Accessing Expertise, Tools, and Resources: A National Partner Panel Discussion

Mica Bumpus
Program Manager
LARC Program
American College of Obstetricians and Gynecologists (ACOG)
Who are we? ACOG LARC Program.

The **LARC Program at the American College of Obstetricians and Gynecologists** works to improve access to the full range of contraceptive methods in the U.S. by connecting providers, patients, and the public with the most up-to-date information and resources on LARC methods:

- Create, revise, and review clinical and educational materials
- Advocate on behalf of providers and patients
- Create educational and practice support tools
- Advocate for reimbursement and coverage
- Develop and provide educational outreach materials and training activities
- Build relationships with family planning colleagues and organizations
- Conduct research on LARC knowledge, attitudes, and practice patterns
How can we support your work? Resources.

• Connections to:
  - ACOG leadership or other OBGYNs in your state advocating for increased access to LARC
  - Immediate postpartum experts

• Clinical guidance through ACOG Practice Bulletins and Committee Opinions

• Content-specific resources: [www.acog.org/larc](http://www.acog.org/larc)
  - Advocacy and policy
  - Clinical Education and Training
  - Practice Tools
  - Patient Education
  - Immediate Postpartum
  - Coding and Reimbursement
  - Zika
  - Webinars
How can we support your work? Training.

• The mission of the **Postpartum Contraception Access Initiative (PCAI)** is to ensure all women have *access to the full range* of postpartum contraceptive methods before leaving a hospital after delivery.

• Two training components:

  **Hands-On Clinical Training**
  - Grand Rounds program & hands-on insertion simulation for OBGYNs & other providers
  - Training for additional L&D staff

  **Operational Support Training**
  - On-site operational systems support for reimbursement, billing, logistics & supply
  - Could include: coding, billing & pharmacy staff, L&D nurse managers, etc.

• Full program implementation and roll out by middle of next year

**Questions? Mica Bumpus at MBumpus@acog.org**
Accessing Expertise, Tools, and Resources: A National Partner Panel Discussion

Michelle Eglovitch
Program Analyst
Women's and Infant Health
Association of Maternal and Child Health Programs (AMCHP)
Assessing Expertise, Tools and Resources

Michelle Eglovitch, MPH
Program Analyst, Women’s and Infant Health, Association of Maternal and Child Health Programs (AMCHP)
Who is AMCHP?

- **Vision**: A nation that values and invests in the health and wellbeing of all women, children, families, and communities.

- **Mission**: Protect and promote the optimal health of women, children, and families.

- **Members**: Leaders/staff from state/territory health agencies and their partners who implement programs to improve the health of women, children, and families.

- **Context**: Title V MCH Services Block Grant (and beyond…)
Products and Activities

**Title V/Title X Issue Brief**
- Developed in conjunction with NFPRHA
- State examples on how Title V and Title X can collaborate

**LARC Economic Analysis Fact Sheet**
- Summarizes types of analyses and methodology

**CDC DRH Agreement - Zika**
- Assisted in planning/facilitating in-person meeting at CDC
- Future AMCHP Conference session
Thank you!

Melissa Kleder
Director
Service Delivery Improvement
National Family Planning and Reproductive Health Association (NFPHRA)
Environmental Scan

In 2016, NFPRHA conducted an environmental scan of 21 states to gain a better understanding of LARC “initiatives.”

For many states, increasing access to LARCs is a part of their overall QFP implementation goal related to increasing contraceptive access.

- Consequently there is great similarity between the approaches states are using to increase contraceptive access.
OBSERVATIONS

- Utilize data
- Offer training
- Expand partnerships
- Facilitate immediate post-partum
LARC Reimbursement Guide

- Updates to website
  - New methods
  - New ICD-10 codes
  - 340B and Medicaid clarification
  - NDC codes

Increasing Access to Contraception Learning Community Schedule

- December 2016: State teams finalize action plans
- Winter 2016/2017: Key Informant Interviews
- January – March, 2017: First check in calls
- April – June, 2017: Second check in calls
- June 2017: ASTHO Evaluation
Increasing Access to Contraception Learning
Community Schedule

- 4 Virtual Learning Sessions – all 2:00-4:00p ET

- December 20, 2016: Virtual Learning Session 1
  - **Date changed to facilitate state participation in the December 13-14 Preconception meeting**

- February 14, 2017: Virtual Learning Session 2

- April 25, 2017: Virtual Learning Session 3

- June 6, 2017: Virtual Learning Session 4
Thank you!!
