

ASTHOConnects: Use of Telehealth for Substance Use Disorder Treatment in Maternal and Child Health Populations

Tuesday, January 21st 1-2pm ET | 12-1pm CT | 11am-12pm MT | 10am-11am PT
 Zoom Meeting information provided upon registration

AGENDA

Objectives:

- Describe the telehealth continuity of care, focusing on the four modalities of telehealth and how they can be leveraged to improve care.
- Share information on how states have used telehealth for provider workforce development and to improve behavioral health outcomes for maternal and child health populations.
- Demonstrate potential ways that state and territorial health agencies can leverage telehealth to improve behavioral health outcomes for maternal and child health populations.
