U.S. Virgin Island’s Federal Grant Planning and Set Up Process Improvement

PLAN (Understand Gaps and Solve Problems)

GOAL: Improve speed and quality of USVI’s Federal Grant Management “Planning and Set Up” process.

FEDERAL GRANTS LIFE CYCLE

IMPROVEMENT HYPOTHESIS:

1. Define, document, and share the new, standardized process, forms, templates, standard operating policies and procedures, and roles/responsibilities for all departments and make it easy to find and access the latest versions.

2. Utilize existing eCIVIS system to communicate, track, share, and facilitate workflow visibility and easily store and find all information in one location.

3. Establish process designees, an interagency community of practice, and a cross agency leadership team.

DO/STUDY (Create and Test Solutions)

- Create one standard process, procedure, and quality checklist.
- Department mailboxes receive and share NOAs.
- Use eCIVIS for document management and process flow alerts and statuses. Eliminate paper processes.
- Work toward no redundant data entry.
- Federal Grants oversight responsibilities in DHS, VIDE, DOH, and DOJ.
- Create a grants management community of practice to ensure continual effectiveness and efficiency.

ACT (Train, Measure Performance/Benefits, and Provide Ongoing Support)

BENEFITS:

- Less Grant Processing Time
- Better Work Quality
- Consistency of Process for All
- Cross-agency Collaboration & Communication
- Better Steward of Funds
- More Community Services
